EMERGENCY ASSISTANCE

Working for the whole person: mind, body, and soul, we connect people with appropriate CCEOK programs, available community resources and other social services, including assistance with the various processes and applications for all types of services.

EMERGENCY ASSISTANCE

Case management and other assistance is primarily provided by phone, email or virtual appointments. In-person consultations are by appointment only.

We provide help with some basic needs and can connect you to other resources available in the community, especially if you are experiencing financial hardship as a result of COVID-19.

Case workers are available to assist with applications for rent and utilities assistance from partner agencies.

We provide assistance with prescription costs in some cases. Copies of prescriptions may be required if approved for medication assistance. No assistance will be given with narcotics or mood-altering medications.

Our case workers can also assist with replacement IDs and applications for various social services (SNAP, Social Security, Unemployment, etc.)

All services are provided without regard to race, religion, nationality, or gender.

If you need immediate help with other services, contact 211 Eastern Oklahoma by dialing 2-1-1 (anytime, 24/7) to talk to a specialist who can help you find the resources you need.

HOW DO I GET HELP?

Due to volume, please email ehelp@cceok.org or call (918) 508-7160 (English) or (918) 508-7161 (Spanish) and leave a message with your name, phone number, and services needed. We strive to respond to both emails and calls within two business days.
